MADE IN ITALY

Sostenibilità, innovazione, qualità. Sono questi i principali punti che caratterizzano la linea di prodotti Karma.

Un vastissimo assortimento di prodotti garantirà la migliore soluzione per la luminosità della vostra abitazione, dall'illuminazione esterna a quella interna, passando per un'ampia gamma di articoli, dalle plafoniere a tutti gli incassi con Power Led, a luce diffusa o a Cob di potenza con parabola. L'azienda è situata a Gardigiano di Scorzè, in provincia di Venezia. Discendenti diretti della migliore tradizione luministica veneziana, gli esperti di Karmaled saranno molto orgogliosi di mostrarvi il valore emozionale e culturale della luce, attraverso una linea di prodotti figlia di un'intensa ricerca ed un attento lavoro. Una luce che saprà dar valore ai vostri ambienti.

*Sustainability, innovation, quality. These are the main aspects that distinguish Karma's product line.*

*A huge assortment of products will guarantee you the best solution for your home lighting, from inside to outside, from light bulbs to ceiling lights and all the recess light solution with PowerLed, diffuse light and Power Cob spotlight.*

*The company is located in Gardigiano di Scorzè, near Venice. Direct descendants of the best Venetian lighting tradition, Karmaled's experts are very proud to show you the emotional and cultural value of light through a product line born from an intense research and a careful work. A light that bring value to your spaces.*

## Prodotti custom

La luce è un elemento fondamentale delle nostre vite e per questo ha bisogno della giusta attenzione. Per tali ragioni, siamo orgogliosi di offrire la possibilità di personalizzare i prodotti, perchè siano utilizzati in maniera ottimale in qualsiasi tipologia di ambiente. Un servizio di Customer Service, vi consiglierà come adattare al meglio i prodotti Karma con i vostri spazi e le vostre esigenze.

## Custom products

*Light is an essential element of our life and it deserves the right attention. For these reasons, we are proud to offer the possibility to customize our products, so they can be used in the best way for every kind of location. Our Customer Service will suggest you how to best adapt Karma products to your spaces.*

## Ricerca e progettazione

Karma si pone l'obiettivo di offrire le migliori soluzioni in campo illuminotecnico. Grazie ad un costante lavoro di ricerca, i nostri esperti sapranno offrire al mercato le risposte più adatte in termini di innovazione e performance tecnologica.

La luce è un aspetto integrante delle nostre vite, oltre ad essere un elemento fondamentale per dar valore e forma alle nostre abitazioni. Karmaled tiene in considerazione questi aspetti, integrandoli con un sapiente lavoro di tecnica e creatività. Per questi motivi, affidarsi ai nostri esperti è la soluzione migliore.

## Research and design

*Karma's target is to offer the best solution for lighting. Thanks to a constant research, our experts can always suggest you the right solutions in terms of innovation and technical performance.*

*Light is an essential element of our life and it is an indispensable aspect to model and give value to our buildings. Karmaled considers these aspects and integrates them with a wise work of technique and creativity. For these reasons, to rely on our experts is the best solution for you.*

## Assistenza del laboratorio tecnico

Per qualsiasi chiarimento, Karma si avvale di un valido e completo servizio di assistenza condotto da una direzione tecnica, in grado di dare quotidianamente risposte precise ed affidabili. Completamente al servizio dei clienti, i nostri esperti sapranno fornire qualsiasi genere di supporto per farvi godere pienamente dei nostri prodotti. Le principali attività della nostra azienda: Progettazione - Laboratorio - Customer Service - Test EMC Pre-Compliance - Test climatici - Rilevazioni Fotometriche, permettono di poter realizzare prodotti personalizzabili, per dare risposte sempre più elastiche e concrete ad un mercato in continua evoluzione.

Il supporto alla vendita è il valore aggiunto della nostra azienda. Uffici commerciali rispondono costantemente ai clienti per consigliare il prodotto più idoneo. Un'attenzione continua verso le richieste esterne, che dal supporto alla vendita, al servizio di assistenza, passando per il servizio di personalizzazione, segue in ogni passo il cliente, supportandolo in ogni genere di esigenza. Il reparto Lighting Design rappresenterà il futuro dell'azienda dove giovani dinamici daranno vita a progetti illuminotecnici.

## Technical support

*For any clarification, Karma has a valid and complete technical support that can help you with correct and reliable answers. Completely at the service of our customers, our experts will be able to give you help in any circumstance, to enjoy our products at best. Main activities of our company are: Design - Laboratory - Customer Service - Pre-Compliance EMC Test - Climatic test - Photometric analysis.*

*These permit us to achieve customizable products, to full satisfy a market that is continuously evolving.*

*Sales support is the added valued for our company.*

*Our commercial offices constantly answer customers to suggest the best product for them. A continuous attention to external requests follows the customer in any step, leading him from sales to customization, helping to satisfy any need. The Lighting Design department will represent the future of our company, where a young and dynamic team will bring life to lighting projects.*

POWERLED LIGHTING

# Taurus

Apparecchi a LED da incasso per esterni,  
con flange intercambiabili  
*LED recessed devices for outdoor,  
with interchangeable flanges*

## Karma presenta il brevetto 2017 della nuova serie Taurus

Ecco una grande novità nel mondo dei corpi illuminanti: finalmente viene data una risposta adeguata al pubblico che si rivolge al mercato dell'illuminazione a LED per i fari da incasso esterno e che ricerca prodotti puliti, eleganti e ben rifiniti, senza viti in vista. Grazie alla grande esperienza produttiva dei tecnici presenti in azienda, si è potuto creare un sistema dinamico ed innovativo: un motore estremamente compatto ed affidabile sia come prestazioni che come tenuta all'acqua. Ma la novità in assoluto è rappresentata dagli accessori intercambiabili che permettono la scelta e la modifica del prodotto con tempi rapidi.

Grazie alla sua semplicità, il prodotto è facilmente riparabile e modificabile nell'aspetto estetico; un esempio ne è il modello senza viti che incontra le richieste sempre più frequenti dei progettisti. Inoltre l'alimentazione a 24Vdc con due fili, di serie su tutta la gamma Taurus permette la dimmerazione con tecnologia PWM.

Taurus 2017, grazie a Karma, aprirà una nuova frontiera nei prodotti da esterno MADE IN ITALY.

### La gamma

La serie Taurus è stata creata con l'obiettivo di poter dare una risposta semplice ma completa a tutta la clientela. La gamma si sviluppa in 4 prodotti: un MONOLED di potenza 3W diam. 60 mm, un MONOLED di nuova tecnologia con potenza 9W diam. 80 mm, un trittico da 9W diam. 130 mm e infine un 7 LED da 21W diam. 170 mm.

Per ogni prodotto c'è la possibilità di scegliere la tonalità di luce, che può essere 3000°K, 4000°K, 6000°K, BLU e RGB e l'angolo della lente, secondo l'applicazione e l'effetto che si vuole ottenere. A livello estetico, ogni prodotto viene abbinato ad una serie specifica di flange, tonde o quadrate, con o senza viti, filo pavimento o ad emissione laterale, funghi o paletti in altezza 30 cm.

## Karma presents the patent 2017 of new Taurus line

*Here is a great novelty in the world of lighting fixtures: at last an appropriate response is given to people which is targeting the LED lighting market for outdoor recessed headlights and looking for clean, stylish and well finished products with no screws at view. Thanks to the great production experience of the technicians in the company, it was possible to create a dynamic and innovative system: an extremely compact and reliable engine both as a performance and waterproof. But the absolute novelty is represented by interchangeable accessories that allow you to choose and modify your product quickly.*

*Due to its simplicity, the product is easily repairable and editable in aesthetic appearance; an example is the sculptural model that meets the ever-increasing demands of designers. In addition, the system of 24Vdc power supply with two wires, standard on the entire Taurus range, allows dimmering with PWM technology. Taurus 2017, thanks to Karma company, will open a new frontier for outdoor MADE IN ITALY products.*

### The range

*The Taurus Series is created with the aim of giving a simple but complete answer to all the customers. The range is developed in 4 products: a 3W power MONOLED diam. 60 mm, a 9W power new technological MONOLED diam. 80 mm, a 3-LED module with 9W power and diam. 130 mm and a 7-LED module with 21W diam. 170 mm.*

*For each product there is a choice of light shade, which can be 3000°K, 4000°K, 6000°K, BLUE and RGB and the angle of the lens, depending on the application and the effect you desire. At aesthetic level, each product is matched to a specific series of flanges, round or square, with or without screws, flooring or side emitter installation, side emitter mushrooms or column light in height 30 cm.*

Alimentazione innovativa a 24Vdc dimmerabile su 2 fili

Innovative power at 24Vdc 2 cables dimmable

Il prodotto TA35 è il più piccolo della gamma, con il suo frontale da 63 mm alloggia un MONOLED di potenza 3W.

Come per ogni prodotto c'è la possibilità di scegliere la tonalità di luce, che può essere 3000°K, 4000°K, 6000°K, BLU e RGB e l'angolo della lente, secondo l'applicazione e l'effetto che si vuole ottenere.

A livello estetico, TA35 viene abbinato ad una serie specifica di flange, tonda, quadra e filo pavimento, tutte senza viti in vista.

*The TA35 product is the smallest one in the range, with its frontal 63 mm diameter and 3W power MONOLED.*

*As for each product there is a choice of light shade, which can be 3000°K, 4000°K, 6000°K, BLUE and RGB and the angle of the lens, depending on the application and the effect you desire.*

*At aesthetic level, TA35 is matched to a specific series of flanges, round, square and flooring installation, all three flanges are without screws at sight.*

## TA35

Motore base compatto, calibrato e proporzionato per 1 LED High Power o RGB, per applicazioni esterne, interne con alto tasso di umidità.

Dispositivo che, data la sua compattezza, permette di essere utilizzato in un numero considerevole di applicazioni, per illuminare pareti e percorsi.

Grazie al grado di IP dichiarato, può essere utilizzato in ambienti con elevato tasso di umidità, quali docce o saune, nonché in bocche di lupo.

Sono previste due controcasse per l'installazione in gettata, oltre a quella standard è prevista una controcassa speciale per installazione filo pavimento. La controcassa non è in dotazione con il faro.

Sono disponibili vari angoli di emissione e tonalità della luce.

*Compact, calibrated and proportionate fixture for 1 piece of High Power or RGB LED, for outdoor or indoor applications, also in places with high humidity.*

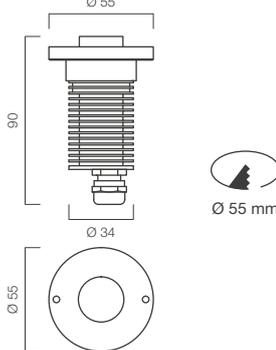

*Due to its compactness, the item TA35 allows it to be used in a lot of applications, to illuminate walls and paths.*

*As well as its IP rating, it can be used in high humidity environments such as showers or saunas as well as in basement window wells.*

*Karma company offers you two different plastic recessed boxes for installation, in addition to the standard one, there is special housing for recessed to the flooring installation. The back cover is not supplied with the fixture, you have to request it separately.*

*Various angles of emission and light shades are available.*

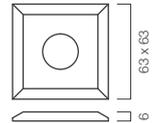

Per la versione a 24Vdc, il prodotto viene corredato di un driver sul cavo di alimentazione.  
For the 24Vdc version, the product is equipped with a driver on the input wire.

## Karma presenta il brevetto 2017 della nuova serie Taurus

Ecco una grande novità nel mondo dei corpi illuminanti: finalmente viene data una risposta adeguata al pubblico che si rivolge al mercato dell'illuminazione a LED per i fari da incasso esterno e che ricerca prodotti puliti, eleganti e ben rifiniti, senza viti in vista. Grazie alla grande esperienza produttiva dei tecnici presenti in azienda, si è potuto creare un sistema dinamico ed innovativo: un motore estremamente compatto ed affidabile sia come prestazioni che come tenuta all'acqua. Ma la novità in assoluto è rappresentata dagli accessori intercambiabili che permettono la scelta e la modifica del prodotto con tempi rapidi.

Grazie alla sua semplicità, il prodotto è facilmente riparabile e modificabile nell'aspetto estetico; un esempio ne è il modello senza viti che incontra le richieste sempre più frequenti dei progettisti. Inoltre l'alimentazione a 24Vdc con due fili, di serie su tutta la gamma Taurus permette la dimmerazione con tecnologia PWM.

Taurus 2017, grazie a Karma, aprirà una nuova frontiera nei prodotti da esterno MADE IN ITALY.

### La gamma

La serie Taurus è stata creata con l'obiettivo di poter dare una risposta semplice ma completa a tutta la clientela. La gamma si sviluppa in 4 prodotti: un MONOLED di potenza 3W diam. 60 mm, un MONOLED di nuova tecnologia con potenza 9W diam. 80 mm, un tritico da 9W diam. 130 mm e infine un 7 LED da 21W diam. 170 mm.

Per ogni prodotto c'è la possibilità di scegliere la tonalità di luce, che può essere 3000°K, 4000°K, 6000°K, BLU e RGB e l'angolo della lente, secondo l'applicazione e l'effetto che si vuole ottenere. A livello estetico, ogni prodotto viene abbinato ad una serie specifica di flange, tonde o quadrate, con o senza viti, filo pavimento o ad emissione laterale, funghi o paletti in altezza 30 cm.

## Karma presents the patent 2017 of new Taurus line

*Here is a great novelty in the world of lighting fixtures: at last an appropriate response is given to people which is targeting the LED lighting market for outdoor recessed headlights and looking for clean, stylish and well finished products with no screws at view. Thanks to the great production experience of the technicians in the company, it was possible to create a dynamic and innovative system: an extremely compact and reliable engine both as a performance and waterproof. But the absolute novelty is represented by interchangeable accessories that allow you to choose and modify your product quickly.*

*Due to its simplicity, the product is easily repairable and editable in aesthetic appearance; an example is the sculptural model that meets the ever-increasing demands of designers. In addition, the system of 24Vdc power supply with two wires, standard on the entire Taurus range, allows dimmering with PWM technology. Taurus 2017, thanks to Karma company, will open a new frontier for outdoor MADE IN ITALY products.*

### The range

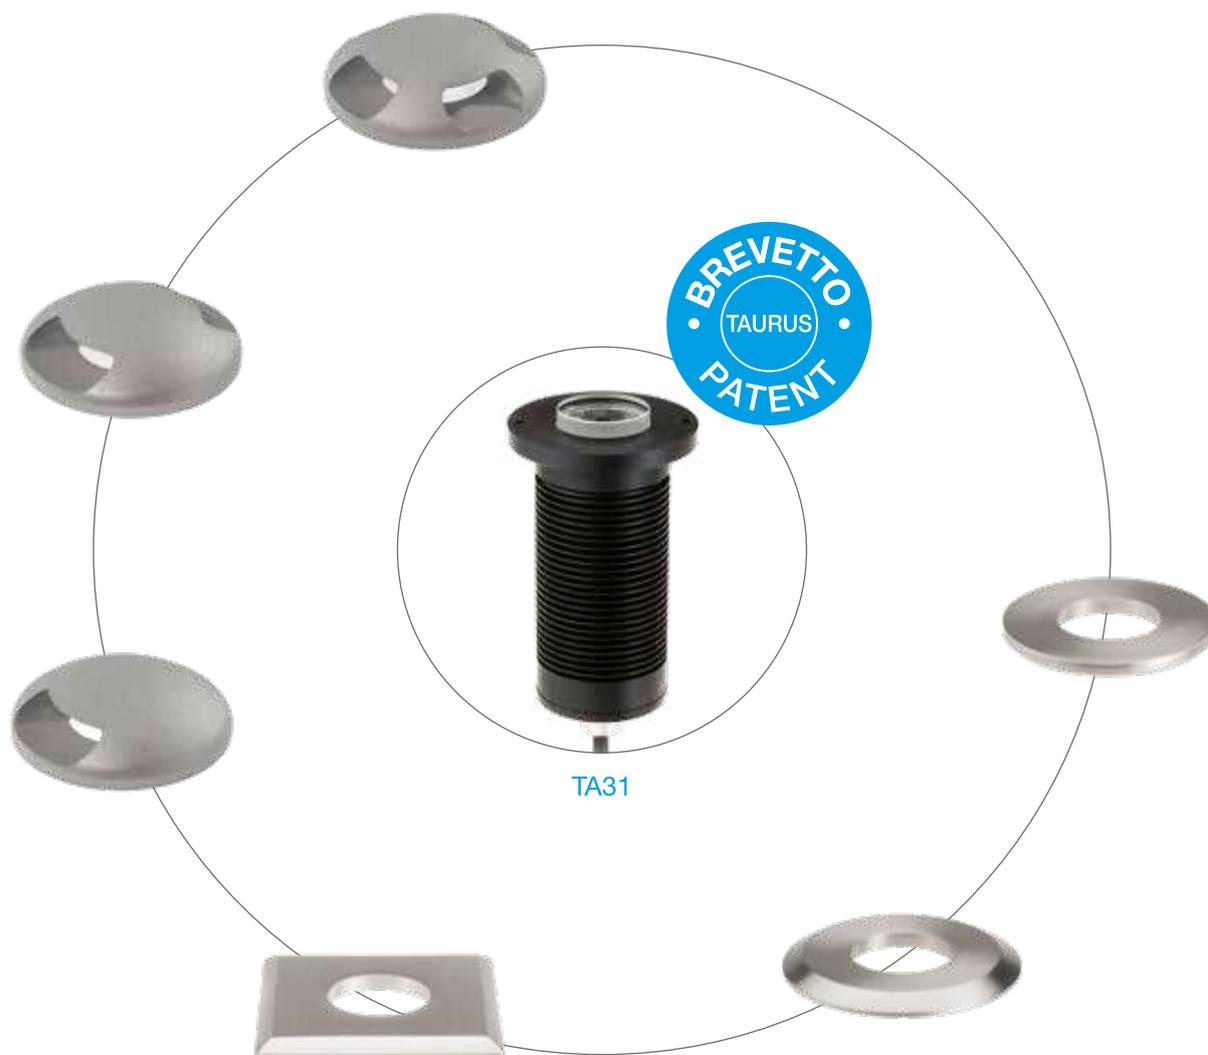

*The Taurus Series is created with the aim of giving a simple but complete answer to all the customers. The range is developed in 4 products: a 3W power MONOLED diam. 60 mm, a 9W power new technological MONOLED diam. 80 mm, a 3-LED module with 9W power and diam. 130 mm and a 7-LED module with 21W diam. 170 mm.*

*For each product there is a choice of light shade, which can be 3000°K, 4000°K, 6000°K, BLUE and RGB and the angle of the lens, depending on the application and the effect you desire. At aesthetic level, each product is matched to a specific series of flanges, round or square, with or without screws, flooring or side emitter installation, side emitter mushrooms or column light in height 30 cm.*

Alimentazione innovativa a 24Vdc dimmerabile su 2 fili

Innovative power at 24Vdc 2 cables dimmable

TA25

TA25 è il prodotto di più completo a livello di flange abbinate: di dimensioni compatte con frontale diametro 130 mm, con trittico da 9W.

Come per ogni prodotto c'è la possibilità di scegliere la tonalità di luce, che può essere 3000°K, 4000°K, 6000°K, BLU e RGB e l'angolo della lente, secondo l'applicazione e l'effetto che si vuole ottenere.

A livello estetico, TA25 viene abbinato ad una serie specifica di flange, tonde o quadrate, con o senza viti, filo pavimento o ad emissione laterale, funghi o paletti in altezza 30 cm.

*The TA25 item is the most complete product with a lot of combined matched: compact size with frontal in diameter 110 mm, with a 3-LED module with 9W power. As for each product there is a choice of light shade, which can be 3000°K, 4000°K, 6000°K, BLUE and RGB and the angle of the lens, depending on the application and the effect you desire. At aesthetic level, TA25 is matched to a specific series of flanges, round or square, with or without screws, flooring or side emitter installation, side emitter mushrooms (mono directional light, bi-directional light or 4 directional light) or column light in height 30 cm.*

## TA25

Motore ad elevata potenza, calibrato e proporzionato per 3 LED High Power per applicazioni esterne, interne con alto tasso di umidità. Prodotto di punta della gamma Taurus: è il prodotto con la più ampia offerta di flange. Dispositivo che, data la sua compattezza, permette di essere utilizzato in un numero considerevole di applicazioni, per illuminare pareti e percorsi. Grazie al grado di IP dichiarato, può essere utilizzato in ambienti con elevato tasso di umidità, quali docce o saune, nonché in bocche di lupo. Sono previste due controcasse per l'installazione in gettata, oltre a quella standard è prevista una controcassa speciale per installazione filo pavimento. La controcassa non è in dotazione con il faro. Sono disponibili vari angoli di emissione e tonalità della luce.

*High performance fixture, calibrated and proportioned for 3 pieces of High Power LEDs for outdoor or indoor applications, also in places with high humidity.*

*Top sales product of Taurus series: it is the product with the widest range of flanges.*

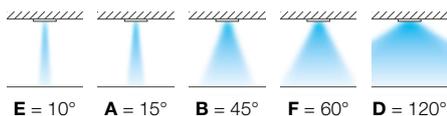

*Due to its compactness, the item TA25 allows it to be used in a lot of applications, to illuminate walls and paths.*

*As well as its IP rating, it can be used in high humidity environments such as showers or saunas as well as in basement window wells.*

*Karma company offers you two different plastic recessed boxes for installation, in addition to the standard one, there is special housing for recessed to the flooring installation. The back cover is not supplied with the fixture, you have to request it separately.*

*Various angles of emission and light shades are available.*

## Karma presenta il brevetto 2017 della nuova serie Taurus

Ecco una grande novità nel mondo dei corpi illuminanti: finalmente viene data una risposta adeguata al pubblico che si rivolge al mercato dell'illuminazione a LED per i fari da incasso esterno e che ricerca prodotti puliti, eleganti e ben rifiniti, senza viti in vista. Grazie alla grande esperienza produttiva dei tecnici presenti in azienda, si è potuto creare un sistema dinamico ed innovativo: un motore estremamente compatto ed affidabile sia come prestazioni che come tenuta all'acqua. Ma la novità in assoluto è rappresentata dagli accessori intercambiabili che permettono la scelta e la modifica del prodotto con tempi rapidi.

Grazie alla sua semplicità, il prodotto è facilmente riparabile e modificabile nell'aspetto estetico; un esempio ne è il modello senza viti che incontra le richieste sempre più frequenti dei progettisti. Inoltre l'alimentazione a 24Vdc con due fili, di serie su tutta la gamma Taurus permette la dimmerazione con tecnologia PWM.

Taurus 2017, grazie a Karma, aprirà una nuova frontiera nei prodotti da esterno MADE IN ITALY.

### La gamma

La serie Taurus è stata creata con l'obiettivo di poter dare una risposta semplice ma completa a tutta la clientela. La gamma si sviluppa in 4 prodotti: un MONOLED di potenza 3W diam. 60 mm, un MONOLED di nuova tecnologia con potenza 9W diam. 80 mm, un tritico da 9W diam. 130 mm e infine un 7 LED da 21W diam. 170 mm.

Per ogni prodotto c'è la possibilità di scegliere la tonalità di luce, che può essere 3000°K, 4000°K, 6000°K, BLU e RGB e l'angolo della lente, secondo l'applicazione e l'effetto che si vuole ottenere. A livello estetico, ogni prodotto viene abbinato ad una serie specifica di flange, tonde o quadrate, con o senza viti, filo pavimento o ad emissione laterale, funghi o paletti in altezza 30 cm.

## Karma presents the patent 2017 of new Taurus line

*Here is a great novelty in the world of lighting fixtures: at last an appropriate response is given to people which is targeting the LED lighting market for outdoor recessed headlights and looking for clean, stylish and well finished products with no screws at view. Thanks to the great production experience of the technicians in the company, it was possible to create a dynamic and innovative system: an extremely compact and reliable engine both as a performance and waterproof. But the absolute novelty is represented by interchangeable accessories that allow you to choose and modify your product quickly.*

*Due to its simplicity, the product is easily repairable and editable in aesthetic appearance; an example is the sculptural model that meets the ever-increasing demands of designers. In addition, the system of 24Vdc power supply with two wires, standard on the entire Taurus range, allows dimmering with PWM technology. Taurus 2017, thanks to Karma company, will open a new frontier for outdoor MADE IN ITALY products.*

### The range

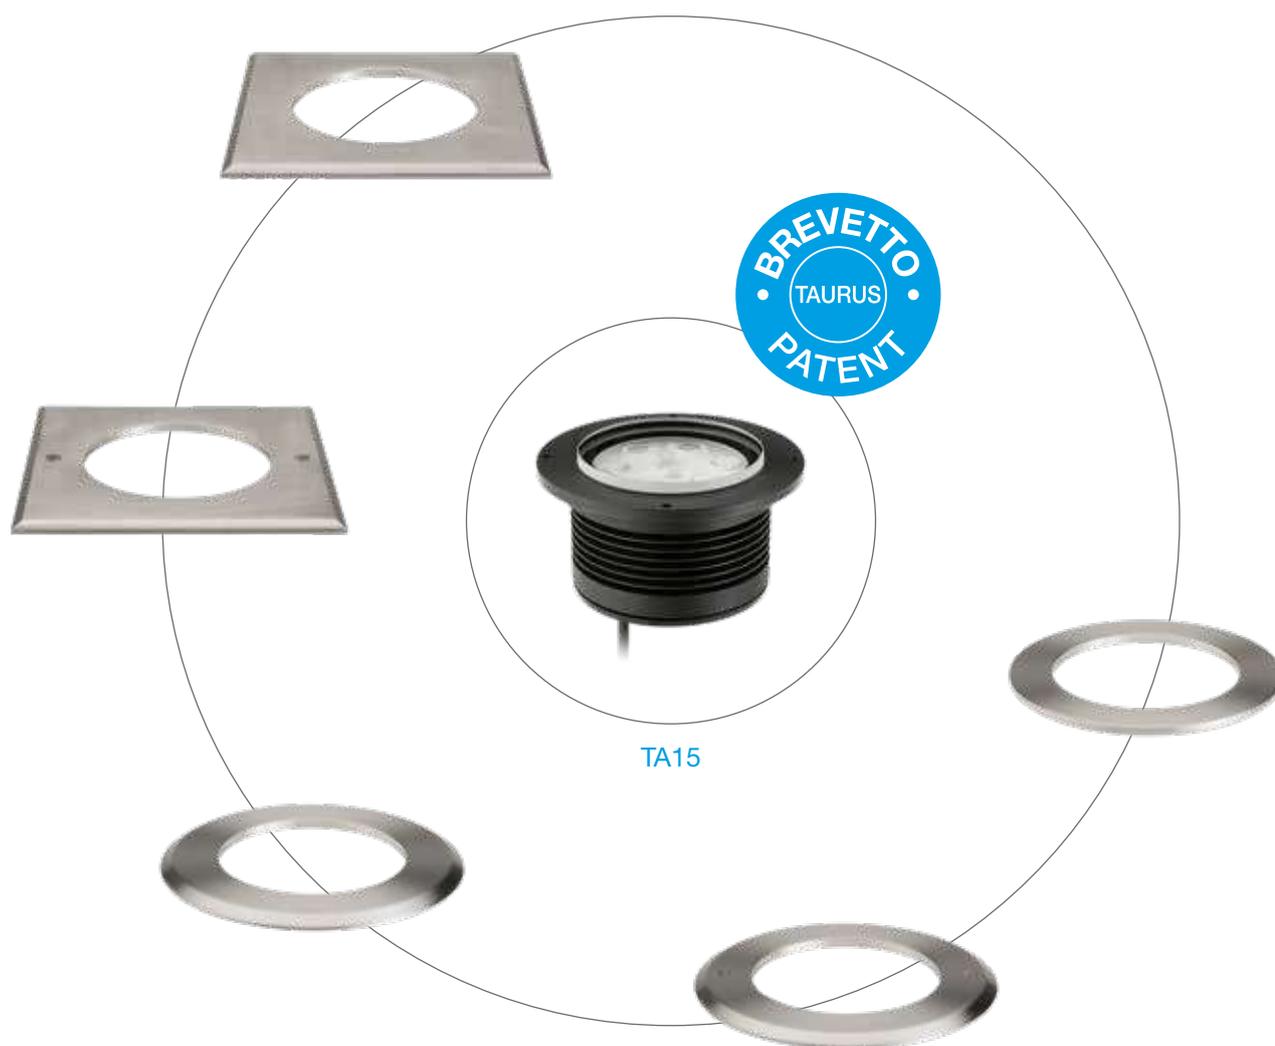

*The Taurus Series is created with the aim of giving a simple but complete answer to all the customers. The range is developed in 4 products: a 3W power MONOLED diam. 60 mm, a 9W power new technological MONOLED diam. 80 mm, a 3-LED module with 9W power and diam. 130 mm and a 7-LED module with 21W diam. 170 mm.*

*For each product there is a choice of light shade, which can be 3000°K, 4000°K, 6000°K, BLUE and RGB and the angle of the lens, depending on the application and the effect you desire. At aesthetic level, each product is matched to a specific series of flanges, round or square, with or without screws, flooring or side emitter installation, side emitter mushrooms or column light in height 30 cm.*

Alimentazione innovativa a 24Vdc dimmerabile su 2 fili

Innovative power at 24Vdc 2 cables dimmable

TA15

Il prodotto TA15 è il più importante a livello dimensionale della gamma, con il frontale in diametro di 170 mm alloggia un modulo a 7 LED da 21W. Come per ogni prodotto c'è la possibilità di scegliere la tonalità di luce, che può essere 3000°K, 4000°K, 6000°K, BLU e RGB e l'angolo della lente, secondo l'applicazione e l'effetto che si vuole ottenere. A livello estetico, TA15 viene abbinato ad una serie specifica di flange, tonde o quadrate, con o senza viti e filo pavimento.

*The TA15 product is the biggest one in the range, with its frontal in diameter 170 mm and 7-LED module with 21W power.*

*As for each product there is a choice of light shade, which can be 3000°K, 4000°K, 6000°K, BLUE and RGB and the angle of the lens, depending on the application and the effect you desire.*

*At aesthetic level, TA15 is matched to a specific series of flanges, round or square, with or without screws, flooring installation.*

## TA15

Motore ad elevata potenza, calibrato e proporzionato per 7 LED High Power per applicazioni esterne, interne con alto tasso di umidità.

Prodotto dimensionalmente importante ad elevate prestazioni. Dispositivo che, data la sua compattezza, permette di essere utilizzato in un numero considerevole di applicazioni, per illuminare pareti e percorsi, colonne, facciate, edifici in genere.

Grazie al grado di IP dichiarato, può essere utilizzato in ambienti con elevato tasso di umidità, quali docce o saune, nonché in bocche di lupo. Sono previste due controcasse per l'installazione in gettata, oltre a quella standard è prevista una controcassa speciale per installazione filo pavimento. La controcassa non è in dotazione con il faro.

Sono disponibili vari angoli di emissione e tonalità della luce.

*High performance fixture, calibrated and proportioned for 7 pieces of High Power LEDs for outdoor or indoor applications, also in places with high humidity.*

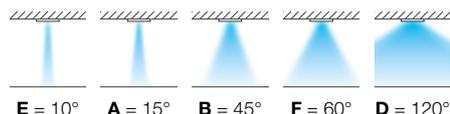

*Dimensionally important products, with high performance. Due to its compactness, the item TA15 allows it to be used in a lot of applications, to illuminate walls and paths, columns, buildings in general.*

*As well as its IP rating, it can be used in high humidity environments such as showers or saunas as well as in basement window wells.*

*Karma company offers you two different plastic recessed boxes for installation, in addition to the standard one, there is special housing for recessed to the flooring installation. The back cover is not supplied with the fixture, you have to request it separately.*

*Various angles of emission and light shades are available.*

Proiettori a LED da esterno  
*LED devices for outdoor*

## Karma presenta la serie Phoenix, uno stile innovativo di prodotti Made in Italy

Con la serie Phoenix, Karma presenta 5 nuove linee complete di prodotti da esterno con elevato indice di protezione.

Un medesimo stile di prodotto per fari da parete mono- e bi-emissione, fari da plafone, paletti e proiettori orientabili.

Ogni linea si distingue per utilizzo, estetica, dimensioni e caratteristiche tecniche.

L'innovativo sistema di montaggio, con l'utilizzo di colle ad altissimo fissaggio, permette di eliminare le viti rendendo la serie Phoenix pulita, minimale ed elegante. Con l'impiego di LED COB ad alta potenza, il prodotto raggiunge la massima performance, dando un risultato all'altezza delle aspettative. Il cliente deve solo decidere la linea di prodotto più adatta alle proprie esigenze o alla location.

## Karma company presents Phoenix serie, a new style of products Made in Italy

*With the Phoenix serie, Karma company presents 5 new lines of outdoor products with high protection index. A same product style for mono- and bi-emission wall devices, ceiling devices, bollards and adjustable devices. Each line stands out for its use, aesthetics, dimensions and technical features. The innovative assembly system, with the use of very strength glue, eliminates screws and makes the Phoenix serie clean, minimal and elegant. With the use of high power COB LEDs, the product reaches maximum performance, giving a result up to expectations. The customer only has to decide the product line, which best suits his needs or location.*

Karma ha creato la serie Phoenix con lo scopo di eliminare le viti a vista, solitamente usate per assemblare i prodotti, usando in alternativa incollanti speciali, ad alta resistenza. Il prodotto ottenuto si presenta con un unico monoblocco centrale lineare, elegante ed omogeneo, senza punti di debolezza.

Ogni profilo estruso che viene impiegato è stato studiato e disegnato per questo scopo, nulla è stato lasciato al caso. Si sviluppa quindi una gamma di prodotti modulare ed espandibile con un particolare e riconoscibile Family Feeling.

Tutta la produzione, dalla estrusione, all'assemblaggio, alla lavorazione, viene realizzata in Italia, per mantenere un elevato livello qualitativo del prodotto durante ogni fase della sua realizzazione.

Questo procedimento ci permette inoltre di realizzare produzioni custom, di adattare il prodotto alle esigenze di mercato e di ampliare la gamma con soluzioni sempre nuove.

*Karma has created the Phoenix series with the aim of eliminating the screws at sight, usually used to assemble the products, using as alternative very-strength special glue. The product obtained is a single piece of linear, elegant and homogeneous central monoblock, with no weak points.*

*Any extruded profile that is being used has been studied and designed for this purpose, nothing has been left to chance. So a range of modular and expandable products is developed with a distinctive and recognizable Family Feeling.*

*The complete production phase, from extrusion, to assembling and manufacturing, is carried out in Italy, in order to maintain a high quality level of product during every stage of its realization.*

*This process also allows us to produce custom items, to adapt the product to the needs of the market, and expand the range with always new solutions.*

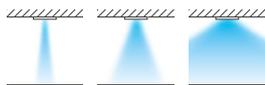

### Apparecchio monodirezionale per esterni da parete.

Corpo rettangolare in alluminio estruso con frontale in vetro. Fissaggio a parete con apposita staffa. L'innovativo sistema di montaggio, tramite l'utilizzo di colle ad altissimo fissaggio, permette l'eliminazione delle viti, rendendo il prodotto pulito ed elegante. Disponibile con LED da 9W, in diverse tonalità di bianco con alimentazione 230Vac oppure in versione RGB con alimentazione 24Vdc. Disponibile in varie finiture da abbinare al contesto. Ideale per illuminazione di pareti ed ottenere effetti decorativi.

### Monodirectional wall mounting device for outdoor.

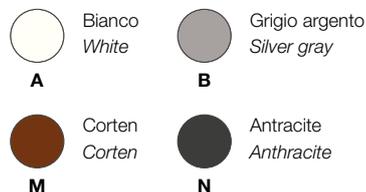

Rectangular body in extruded aluminum with frontal glass. Wall fixing with special bracket. The innovative assembling system, with the use of very strength glue, eliminates screws and makes the Phoenix serie clean, minimal and elegant. Available with 9W power LEDs in different white color temperature with input voltage 230Vac or RGB version with input voltage 24Vdc. Available in various finishes to match the context. Ideal for wall lighting and decorative effects.

POWERLED LIGHTING

Grus

Apparecchi a LED modulari, da incasso per interni  
*Modular recessed LED devices, for indoor*

## La filosofia Karma abbraccia la nuova serie Grus

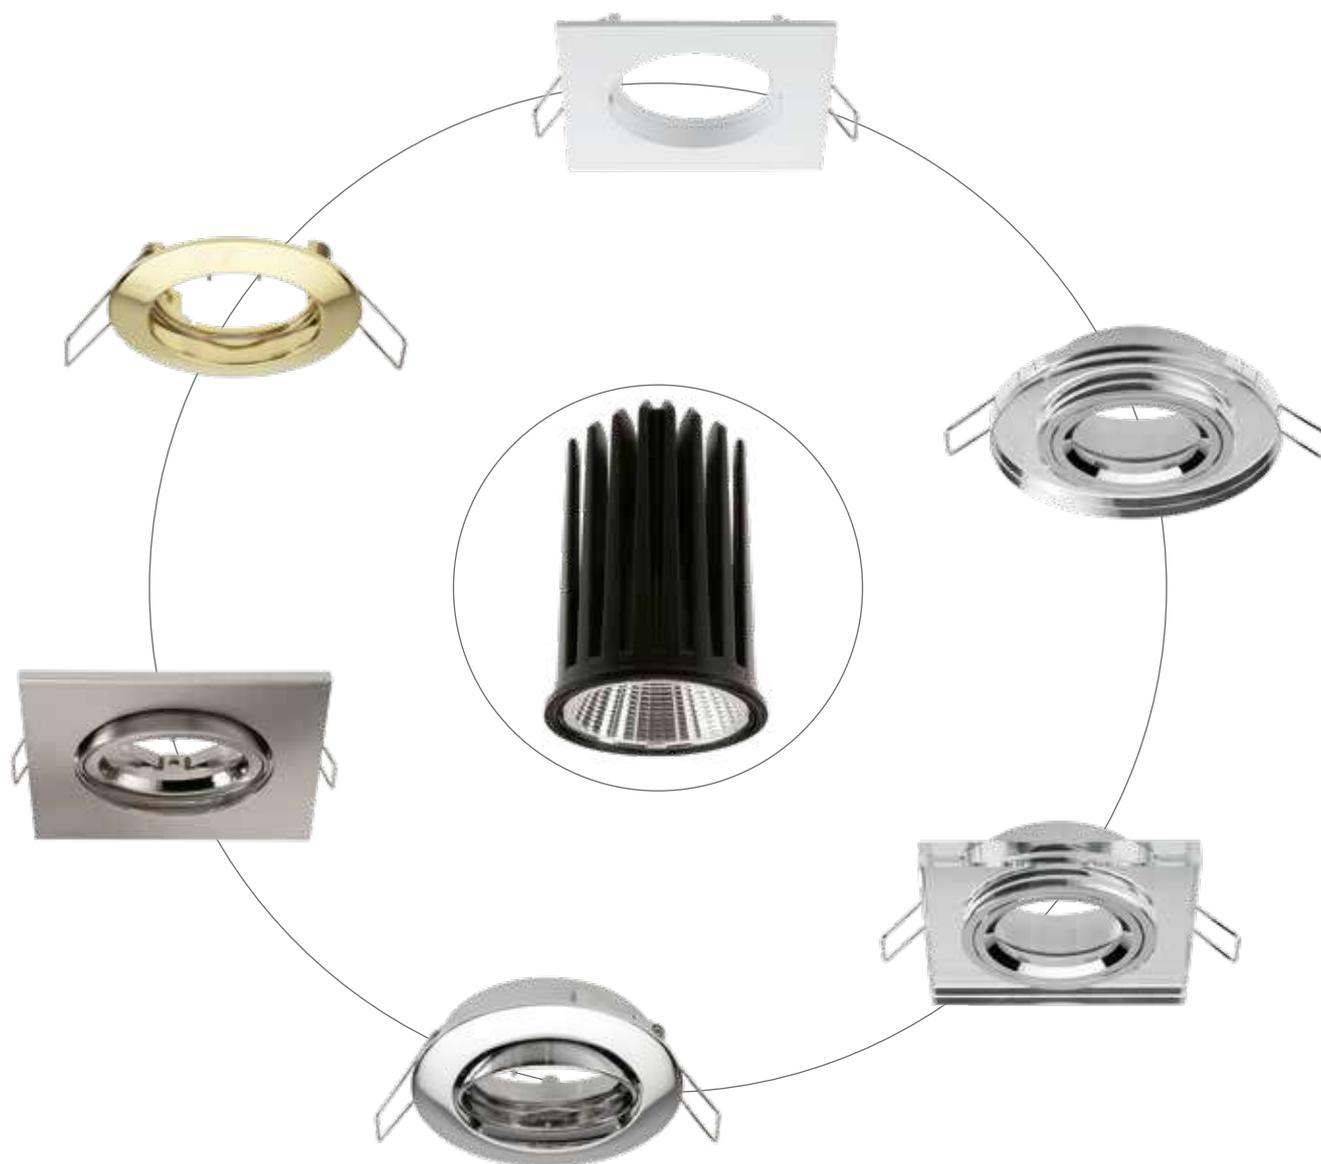

In fase di rinnovamento, l'azienda Karma ha voluto superare una serie di vincoli legati ai prodotti da incasso, da interno, a soffitto o a parete. Il vecchio concetto di prodotto si evolve e diventa componibile.

Il cliente decide la sorgente luminosa e la finitura del prodotto in base ai propri gusti e alle esigenze del progetto. L'utente trova così la giusta soluzione abbinando tonalità della luce ed estetica del faro.

## The Karma philosophy embraces the new Grus series

*During its renovation, Karma company wants to overcome many constraints related to recessed indoor products, ceiling or wall mounted. The old concept of product evolves and becomes modular.*

*The customer decides the light source and finishing of the product as his taste and the requests of the project. In this way, the user finds the right solution combining light shades and light aesthetics.*

### La gamma

Con i prodotti della serie Grus, Karma offre diverse tipologie di sorgente luminosa: modulo COB di potenza 9W con riflettore, modulo trittico di potenza 8W con diverse tonalità di luce bianca e diversi angoli di emissione, con alimentazione a 230Vac oppure con alimentazione a 24Vdc dimmerabile e il modulo RGB full color. Per quanto riguarda le cornici, il cliente può scegliere di avere il prodotto fisso oppure orientabile, in metallo o vetro, rotondo oppure quadrato.

### The range

With the products of the Grus series, Karma company offers several types of light source: 9W power COB module with reflector, 3-LED module with 8W power with different temperature of white light and various emission angles, with 230Vac input voltage or with dimmable 24Vdc input voltage and the RGB full color module. Regarding the frames, the customer can choose to have the product fixed or rotatable, metal or glass, round or square shape.

## GR210

**Apparecchio fisso da incasso per interni.**

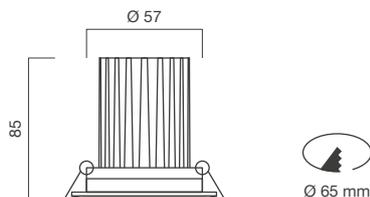

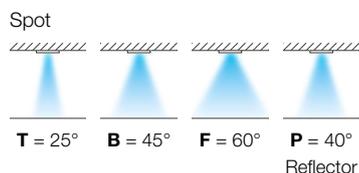

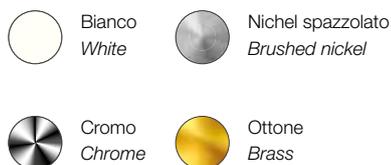

Montaggio tramite molle su cartongesso o altri materiali, installabile sia a soffitto che a parete. Ghiera in alluminio pressofuso, in forma rotonda o quadrata, disponibili in diverse finiture. Con la possibilità di alloggiare varie tipologie di corpi illuminanti ad elevate prestazioni o RGB. Alimentabile per alcuni modelli direttamente a 230Vac, oppure a 24Vdc dimmerabile.

**Fixed recessed interior device.**

Spring fixing on drywall or other materials, mountable on the ceiling or on the wall. Die-cast aluminum frame, round or square, available in different finishes. With the possibility to house various models of high performance LED or RGB. For some models, plugin direct to 230Vac, or 24Vdc dimmable version.

# Lira

Apparecchi a LED da incasso per interni  
*LED recessed devices for indoor*

## La filosofia Karma abbraccia la nuova serie Lira

L'idea delle flange intercambiabili si estende anche alla serie Lira.

Con questa linea di prodotti il cliente ha a disposizione due misure e due potenze, entrambe dotate di COB e riflettore.

Una volta definita la fonte luminosa, l'utente ha la possibilità di scegliere la finitura del prodotto in base ai gusti o all'esigenza del progetto.

Viene offerta così la giusta soluzione abbinando dimensioni e potenza del prodotto, con l'estetica del faro.

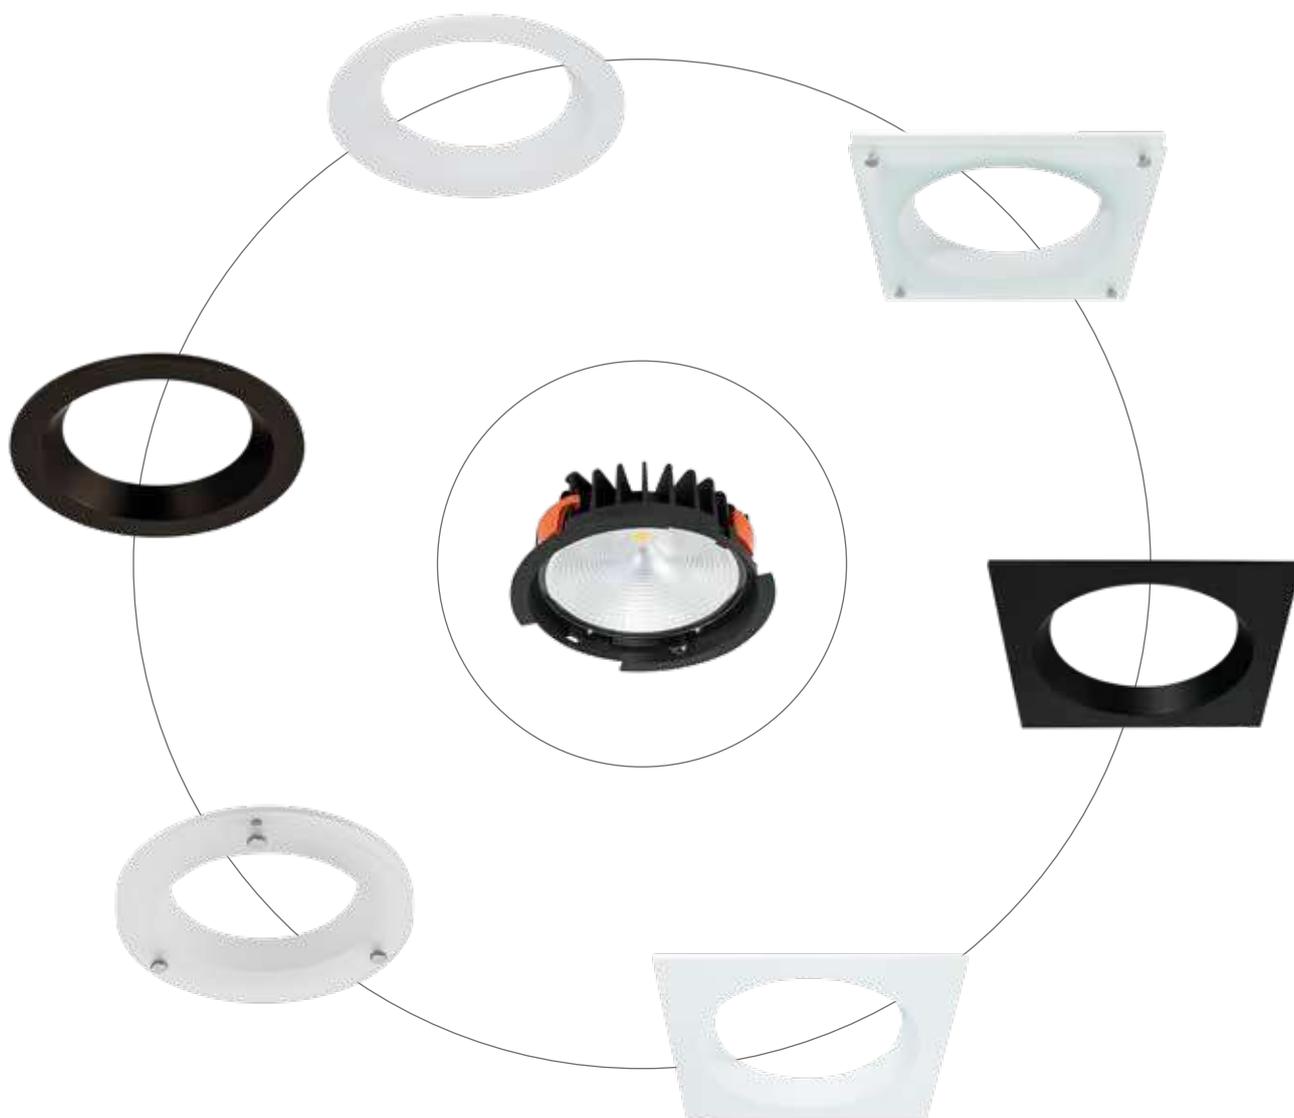

## The Karma philosophy embraces the new Lira series

*The concept of interchangeable frames also extends to the Lira series.*

*With this serie of product, the customer has available two products with different dimensions and powers, each one equipped with COB and reflector.*

*Once the light source is defined, the user can choose the finishing of the product according to the taste or the need of the project.*

*The right solution is offered by matching the size and power of the product with the aesthetics of the device.*

### La gamma

Con i prodotti della serie Lira, Karma offre due diversi motori, equipaggiati con mono LED COB di potenza 15W o 30W.

Per quanto riguarda l'estetica, il cliente può scegliere di avere il prodotto con varie cornici intercambiabili. Con un semplice movimento ad incasso, il cliente ha la possibilità di cambiare l'aspetto del faretto, abbinandolo alle diverse ambientazioni.

### The range

*With the Lira Series products, Karma offers two different module, equipped with mono LED COBs, 15W or 30W power.*

*With regard to esthetic, the customer may choose to have the product with various interchangeable frames. With simple recessed movement, the customer has the option to change the appearance of the device, combining it with different location.*

## LI11N

**Apparecchio fisso da incasso per interni.**

Equipaggiato con COB di potenza 15W per 175 mm di diametro, montaggio tramite speciali alette con tiraggio a vite, su cartongesso o altri materiali, installabile sia a soffitto che a parete.

Corpo in alluminio pressofuso e ghiera frontale in alluminio di forma rotonda, disponibile in finitura verniciata bianco, nero o bianco con vetro.

Viene dato in dotazione l'apposito filtro satinato per ottenere un fascio luminoso più ampio. Ideale per illuminare ambienti domestici, particolarmente indicato per negozi ed aree espositive.

**Fixed recessed interior device.**

Equipped with 15W COB LED, 175 mm diameter, mounting by special adjustable springs by screwdrivers, on drywall or other materials, mountable on the ceiling or on the wall.

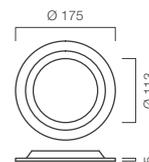

Die-cast aluminum body and round aluminum frame, available in white and black painted finish or white painted finish with glass.

A special satin-type filter is provided to get a wider light beam.

Ideal for indoor environments, especially for shops and exhibition areas.

## LI13N

**Apparecchio fisso da incasso per interni.**

Equipaggiato con COB di potenza 30W per 230 mm di diametro, montaggio tramite speciali alette con tiraggio a vite, su cartongesso o altri materiali, installabile sia a soffitto che a parete.

Corpo in alluminio pressofuso e ghiera frontale in alluminio di forma rotonda o quadrata, disponibile in finitura verniciata bianco, nero o bianco con vetro.

Viene dato in dotazione l'apposito filtro satinato per ottenere un fascio luminoso più ampio. Ideale per illuminare ambienti domestici, particolarmente indicato per negozi ed aree espositive.

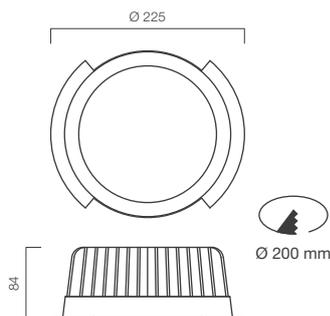

**Fixed recessed interior device.**

Equipped with 30W COB LED, 230 mm diameter, mounting by special adjustable springs by screwdrivers, on drywall or other materials, mountable on the ceiling or on the wall.

Die-cast aluminum body and round or square aluminum frame, available in white and black painted finish or white painted finish with glass.

A special satin-type filter is provided to get a wider light beam.

Ideal for indoor environments, especially for shops and exhibition areas.

Per la versione a 24Vdc, il prodotto viene corredato di un driver sul cavo di alimentazione.  
For the 24Vdc version, the product is equipped with a driver on the input wire.

#### Apparecchio da incasso per interni.

Corpo in alluminio anodizzato nero, frontale in alluminio di forma rotonda (SC16R) oppure quadrata (SC16S) in diverse finiture.

LED frontale a vista per emissione ad ampio raggio.

Disponibile con luce in diverse tonalità di bianco oppure in versione RGB.

Fissaggio a clips per incasso su cartongesso.

Su richiesta disponibile controcassa per fissaggio a muro.

Di dimensioni compatte, ideale per installazioni a parete come indicatore di percorsi.

#### Recessed device for indoor.

Black anodized aluminum body, round (SC16R) or square (SC16S) aluminum front in different finishes.

Without lens to have wide emission of light.

Available in different white color of temperature or in RGB version.

Mounting clip for fixing on plasterboard.

By request, plastic recessed box is available.

Compact size, ideal for installation on wall as signal on paths.

## Pannelli luminosi a LED da interno, alimentatore incluso, con valore UGR<19.

Telaio in alluminio verniciato bianco, diffusore opale.

Montaggio a muro, a incasso o a sospensione, per mezzo degli appositi accessori, fornibili a parte.

Ideale per ambienti pubblici o in luoghi dove la normativa prevede l'applicazione di questo tipo di prodotti.

## LED panels for indoor, power supply unit included, with UGR<19.

Frame in aluminum, white painted, opal diffuser.

Recessed mounting, wall or suspension mounting with suitable accessories, not included.

Ideal for public environment and in any place where the legislation provides for the application of this type of product.

# Strip

Strisce LED per interni ed esterni  
*Strip LED for indoor and outdoor*

# DO87N

Striscia a LED ad alta potenza e alta luminosità a 24Vdc per applicazioni decorative e illuminazioni, da montare con appositi profili dissipanti Karma e accessori testati per il prodotto.

Tipologia di LED selezionata per garantire uniformità, all'interno della striscia, per applicazioni Wall Washer.

Possibilità di ordinare varie tipologie di profili con appositi diffusori ottici, per ottenere effetti e ambientazioni particolari.

È disponibile una vasta gamma di accessori e alimentatori per soddisfare gran parte delle applicazioni, per ottenere effetti decorativi con comandi sia in DMX che Wi-Fi.

Opportunamente sezionabile per coprire tutte le esigenze di montaggio. Con appositi accessori la striscia diviene dimmerabile.

Adatta per illuminazione sia diretta che riflessa, nel caso di applicazioni estremamente gravose sono disponibili dei limitatori di corrente.

*24Vdc High power LED strip, for decorative application and lighting.*

*To be used with Karma's heat sink profiles and approved accessories.*

*Selected LED for light uniformity, for using in Wall Washer applications.*

*Many profile types and optical diffuser are available, to obtain particular effects and settings.*

*Available a lot of accessories and power supply units, suitable for almost any application to obtain decorative effects with DMX or Wi-Fi control.*

*The strip LED is cuttable in custom length, to adapt it to any mounting requirement. The strip is dimmable with dedicated accessories.*

*Suitable for direct and reflected lighting.*

*Current limiters are available in case of heavy applications.*

## Resinatura profili IP68

Processo attraverso il quale avviene il rivestimento della barra/strip LED con un film sottile di resina in grado di proteggere il prodotto dalle aggressioni esterne.

Tramite tale trattamento protettivo, la barra d'illuminazione a LED manterrà inalterata la propria funzionalità e qualità nel tempo, correttamente isolata dall'ambiente esterno e al sicuro da polvere, smog e umidità.

La resina utilizzata permette l'impermeabilizzazione del prodotto fino a un grado di protezione IP68 (IP6x protetto completamente contro la penetrazione della polvere - IPx8 protetto contro gli effetti dell'immersione prolungata a profondità superiore a 1 m).

## Resin coated profiles IP68

*Process through which LED bars or strips are coated with a thin layer of resin able to protect product from external aggressions.*

*Through such protective treatment, LED illuminating bar will keep its functionality and quality unaltered in time and will be correctly insulated from external environment and safe from dust, smog and humidity.*

*Used resin allow the waterproofing of the profile up to IP68 protection (i.e. IP6x means completely protected from dust penetration - IPx8 means protected against effects of prolonged immersion to depth higher than 1 m).*

## Barra LED su misura

Karma da sempre si offre per la realizzazione di prodotti Custom, riuscendo ad offrire alla clientela il prodotto più adatto abbinabile alle esigenze progettuali o estetiche del cliente. Una volta decise le caratteristiche tecniche del prodotto, il nostro reparto assistenza tecnica si offre per dare supporto al cliente nella scelta del profilo più appropriato con relativi accessori come tappi o staffe, abbinato alla cover e alla fonte luminosa. Il tutto non dimenticando il contesto di applicazione del prodotto.

Si può personalizzare la lunghezza della barra così come la lunghezza dei cavi di connessione e tipo di luce.

Inviateci senza impegno il vostro disegno, i nostri tecnici realizzeranno il vostro profilo nelle dimensioni progettate.

## Custom-made profile

*Karma offers always itself for the delivery of Custom products, managing to offer to customers the most suitable product that can be combined with the customer's design or aesthetic needs.*

*Once the technical characteristics of the product have been decided, our technical support department is offered to give support to customer in choosing of the most appropriate profile with relevant accessories (caps or brackets), combined with the cover and light source. All without forgetting the product application context.*

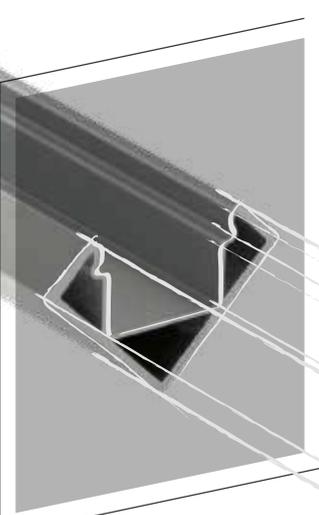

*You can customize the length of the bar as well as the length of the connection cables and the type of light.*

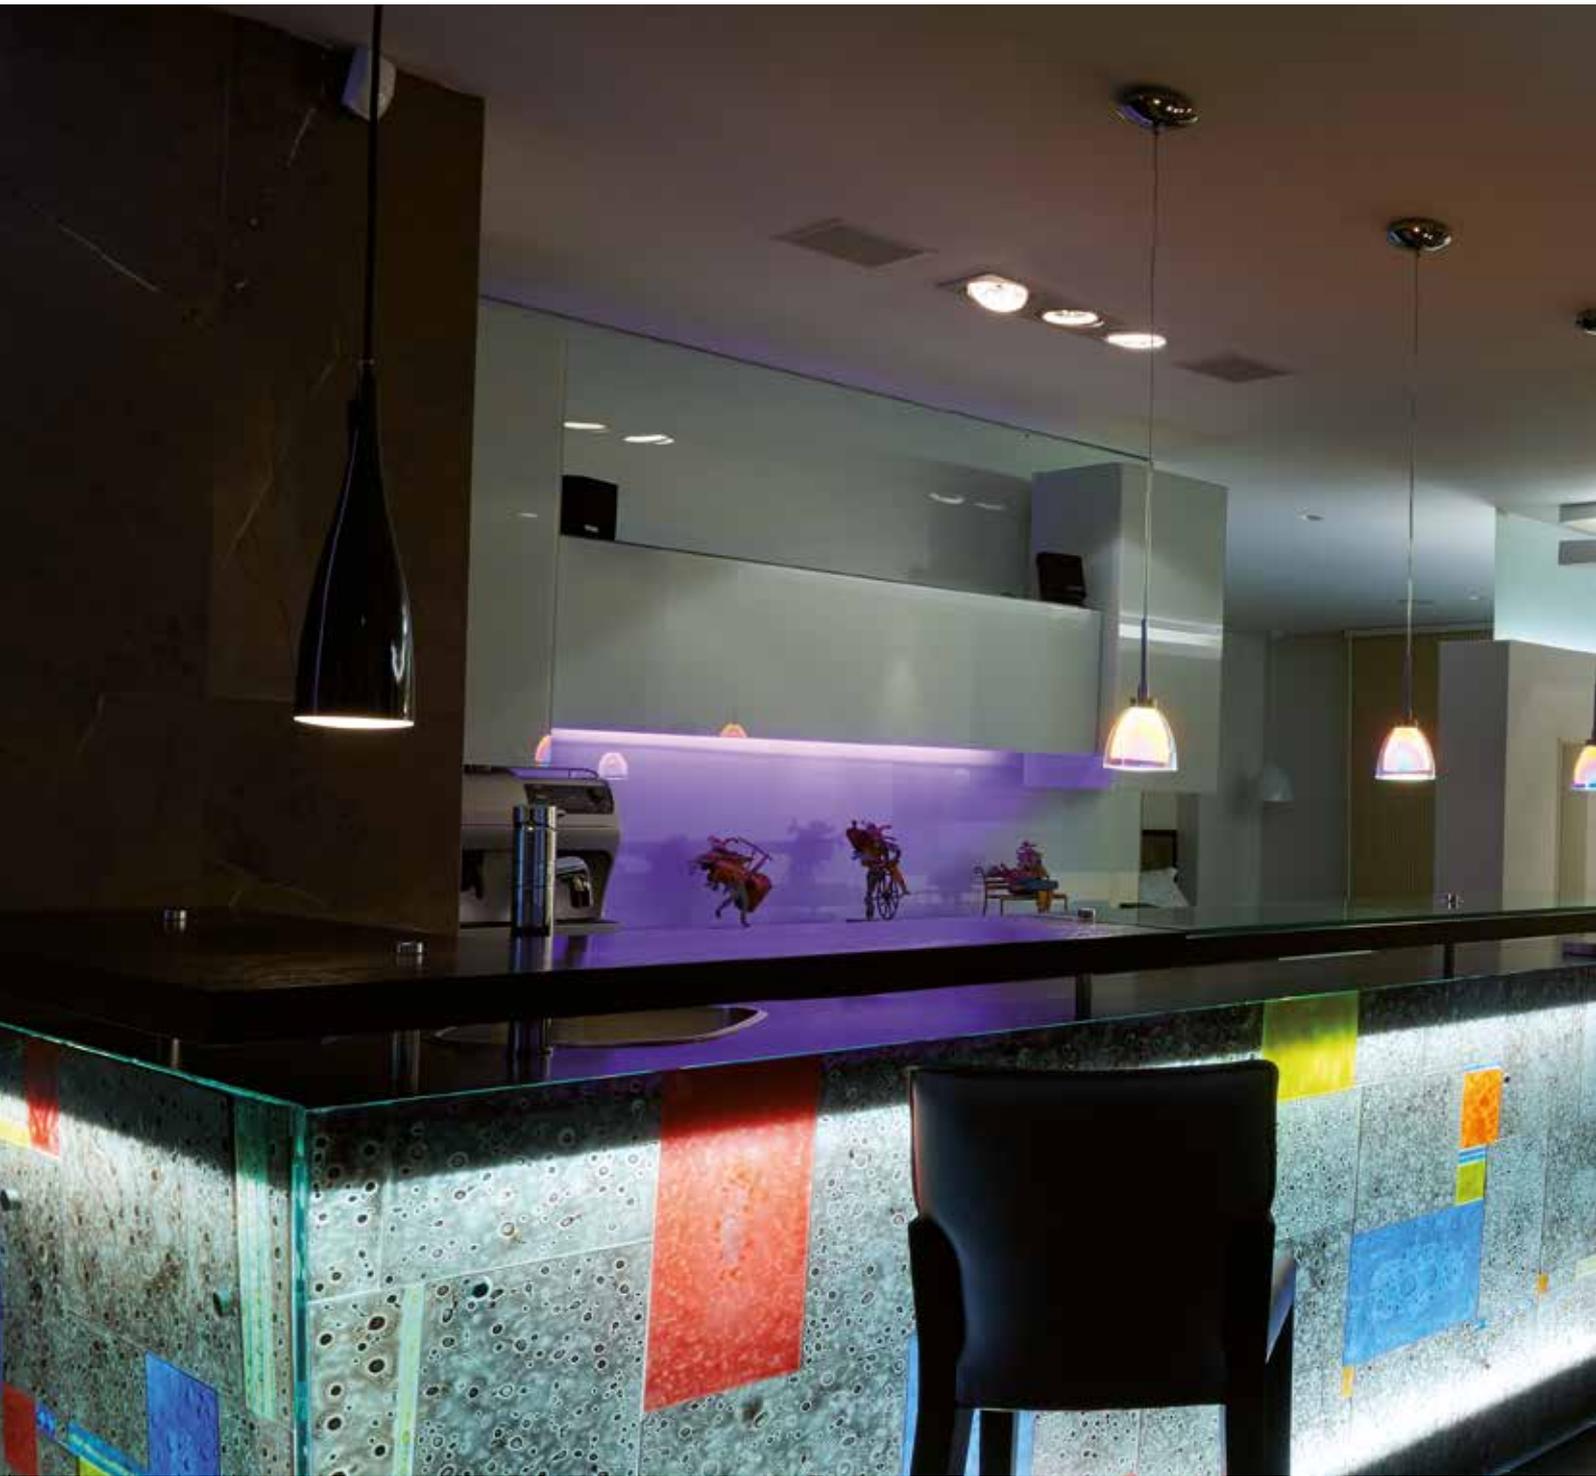

*Send us your design without obligation, our technicians will realize your profile in the designed dimensions.*

# PROF54N

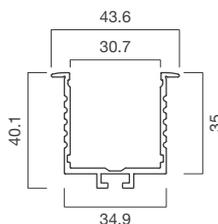

Profilo in alluminio anodizzato per installazioni ad incasso a soffitto, adatto per ottenere l'effetto di guida luminosa continua a scomparsa.

La profondità del profilo e il diffusore satinato, garantiscono l'omogeneità dell'emissione della luce, senza far notare i punti luminosi dei LED. Le dimensioni del prodotto permettono l'installazione fino a 2 strip LED da 14,4W/m max cad. Adatto per l'installazione nel cartongesso grazie alle apposite molle. Su richiesta sono disponibili i tappi di chiusura.

*Anodized aluminum profile for recessed ceiling installation, suitable to obtain the effect of a hidden continue light guide. The depth of the profile and the satin diffuser ensure the homogeneity of the emission of light, without seeing the LED light points. The size of the product permits the installation till up 2 x14,4W/m strip LEDs. Suitable for plasterboard installation, with special springs. On request, end caps are available.*

# PROF87N

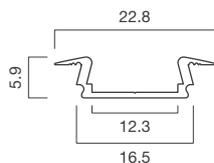

Profilo in alluminio a basso spessore, di dimensioni molto contenute, idoneo per montaggio ad incasso. Disponibili tappi di chiusura e clip di montaggio. Abbinando il profilo universale PROF80N e gli accessori relativi, si ha la possibilità di ottenere un profilo con passaggio cavi, per il quale sono disponibili il kit per montaggio a parete o soffitto, kit per sospensione o trasformare il profilo in barra luminosa orientabile.

*Low thickness aluminum profile, small dimensions item, suitable for recessed mounting.*

*End caps and mounting clips are available. By combining the universal profile item code PROF80N and its accessories, you have the option of obtaining a cable passage profile for which you can have kits for mounting at wall or ceiling, suspension kit or transform the profile in adjustable light bar.*

# PROF88N

Profilo in alluminio anodizzato per installazioni a parete o a soffitto. La profondità del profilo permette l'omogeneità dell'emissione della luce, senza far notare i punti luminosi dei LED. L'effetto è ancora maggiore con l'impiego del diffusore rettangolare oppure bombato. Le dimensioni del prodotto permettono l'installazione fino a 2 Strip LED da 14,4W/m max cad. Disponibili tappi di chiusura in abbinamento alle diverse forme di diffusori. Abbinando il profilo universale PROF80N e gli accessori relativi, si ha la possibilità di ottenere un profilo con passaggio cavi, per il quale sono disponibili il kit per montaggio a parete o soffitto, kit per sospensione o trasformare il profilo in barra luminosa orientabile.

*Anodized aluminum profile for wall or ceiling installation. The depth of the profile allows the homogeneity emission of the light, without noticing the LED light points. The effect is even greater with the use of the rectangular or convex cover profiles. The product dimensions allow up to 2x14,4W/m max Strip LEDs. End caps are available in combination with the different cover profiles. By combining the universal profile item code PROF80N and its accessories, you have the option of obtaining a cable passage profile for which you can have kits for mounting at wall or ceiling, suspension kit or transform the profile in adjustable light bar.*

Power	<b>108W</b>

Protection	<b>IP20</b>
Input	<b>85-132Vac / 170-264Vac by switch • 47-63Hz</b>
Output	<b>12Vdc • 12.5A</b>
Power	<b>150W</b>

Protection	<b>IP20</b>
Input	<b>85-132Vac / 170-264Vac by switch • 47-63Hz</b>
Output	<b>24Vdc • 6.5A</b>
Power	<b>156W</b>

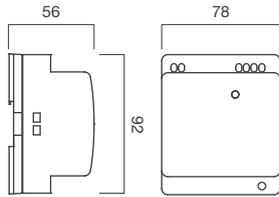

1. All parameters NOT specially mentioned are measured at 230Vac input, rated load and 25°C of ambient temperature.
2. Ripple and noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf and 47uf parallel capacitor.
3. Tolerance: includes set up tolerance, line regulation and load regulation.
4. Line regulation is measured from low line to high line at rated load.
5. Load regulation is measured from 0% to 100% rated load.
6. Length of set up time is measured at cold first start. Turning ON/OFF the power supply very quickly may lead to increase of the set up time.
7. The ambient temperature derating of 5°C/1000m is needed for operating altitude greater than 2000m(6500ft).

8. The power supply is considered a component which will be installed into a final equipment. All the EMC tests are been executed by mounting the unit on a 360mm\*360mm metal plate with 1mm of thickness. The final equipment must be re-confirmed that is still meets EMC directives. For guidance on how to perform these EMC tests, please refer to "EMI testing of component power supplies". (as available on <http://www.meanwell.com>)
9. 5V when the load factor 0~50%, the switching power less is reduced by burst operation, which will cause ripple and ripple noise to go beyond the specifications (only for LRS-35).

# Serie ADT COSTANT VOLTAGE

Power	<b>500W</b>

1. Se non diversamente indicato, tutti i parametri sono misurati a un carico nominale in input di 230Vac e ad una temperatura ambiente di 25°C.
2. Il rumore è rilevato ad una frequenza di 20MHz, usando un doppino da 12" attorcigliato terminante con un condensatore in parallelo da 0.1uf a 10uf.
3. Tolleranza: include tolleranza con regolazione del potenziometro, regolazione di linea e regolazione di carico.
4. L'alimentatore è considerato come componente che verrà installato nell'apparecchio finale. È necessario controllare che l'apparecchio finale rispetti la direttiva EMC. Per sapere come eseguire i test EMC, vi preghiamo di far riferimento ai test EMI per alimentatori.
5. Se l'alimentatore va in corto circuito senza essere sotto carico, ritornerà automaticamente in funzione non appena il corto circuito sarà rimosso (solo per ALT150W).

1. All parameters NOT specially mentioned are measured at 230Vac input, rated load and 25°C of ambient temperature.
2. Ripple and noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf and 10uf parallel capacitor.
3. Tolerance: includes set up tolerance, line regulation and load regulation.
4. The power supply is considered a component which will be installed into a final equipment. The final equipment must be re-confirmed that is still meets EMC directives. For guidance on how perform these EMC tests, please refer to "EMI testing of component power supplies".
5. If the power supply is short-circuited under no load, it will recover automatically when short-circuit is removed (only for ALT150W).

Code **ALP200.12**

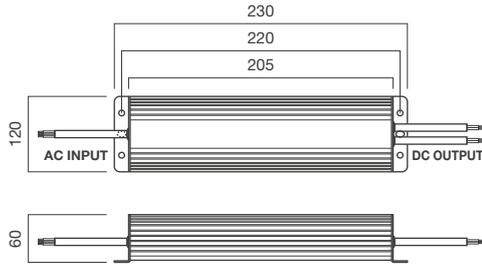

Protection **IP67**

Input **100-240Vac • 50-60Hz**

Output **12Vdc • 16.5A**

Power **200W**

Code **ALP200.24**

Protection **IP67**

Input **100-240Vac • 50-60Hz**

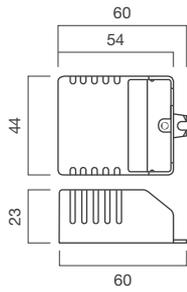

Output **24Vdc • 8.25A**

Power **200W**

1. Se non diversamente indicato, tutti i parametri sono misurati a un carico nominale in input di 230Vac e ad una temperatura ambiente di 25°C.
2. Il rumore è rilevato ad una frequenza di 20MHz, usando un doppino da 12" attorcigliato terminante con un condensatore in parallelo da 0.1uf a 10uf.
3. Tolleranza: include tolleranza con regolazione del potenziometro, regolazione di linea e regolazione di carico.

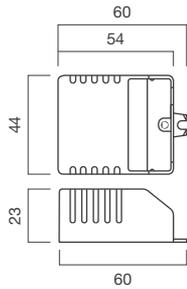

1. All parameters NOT specially mentioned are measured at 230Vac input, rated load and 25°C of ambient temperature.
2. Ripple and noise are measured at 20MHz of bandwidth by using a 12" twisted pair-wire terminated with a 0.1uf and 10uf parallel capacitor.
3. Tolerance: includes set up tolerance, line regulation and load regulation.

Code **APC006.350**

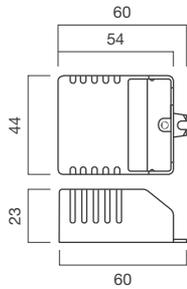

Protection	<b>IP20</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>3-22Vdc • 350mA</b>
Number Led	<b>1-7</b>
Power	<b>6W</b>

Code **APC006.500**

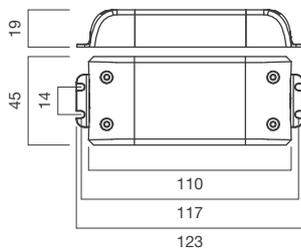

Protection	<b>IP20</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>6-14Vdc • 500mA</b>
Number Led	<b>2-4</b>
Power	<b>6W</b>

Output	<b>20-50Vdc • 350mA</b>
Number Led	<b>7-13</b>
Power	<b>18W</b>

Code **ACP032.700**

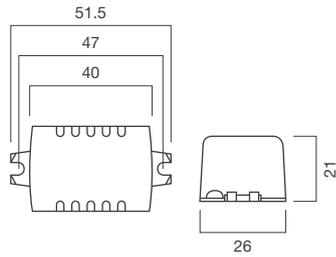

Protection	<b>IP67</b>
Input	<b>170-265Vac • 47~63Hz</b>
Output	<b>18-45Vdc • 700mA</b>
Number Led	<b>6-13</b>
Power	<b>31.5W</b>

# Serie APP COSTANT VOLTAGE

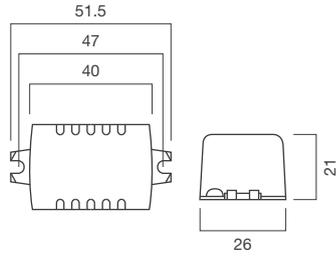

Code **APP003.12**

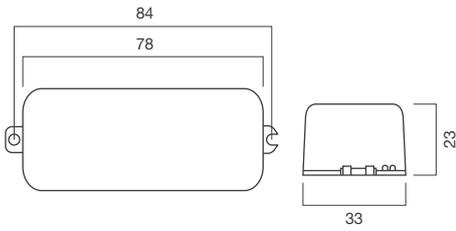

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>12Vdc • Max 0.25A</b>
Power	<b>3W</b>

Code **APP003.24**

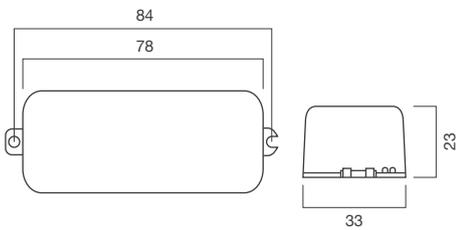

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>24Vdc • Max 0.125A</b>
Power	<b>3W</b>

Code **APP009.12**

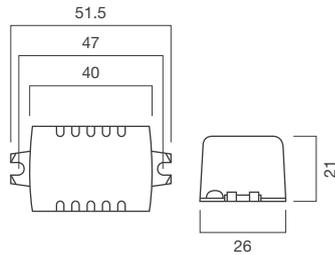

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>12Vdc • Max 0.75A</b>
Power	<b>9W</b>

Code **APP009.24**

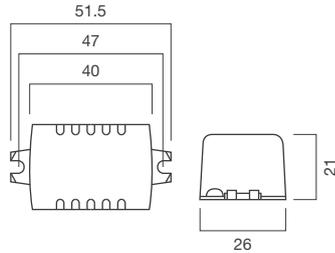

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>24Vdc • Max 0.35A</b>
Power	<b>9W</b>

Code **APP003.350**

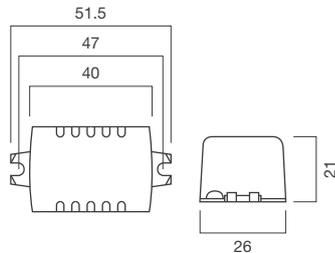

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>3-12Vdc • 350mA</b>
Number Led	<b>1-3</b>
Power	<b>3W</b>

Code **APP003.500**

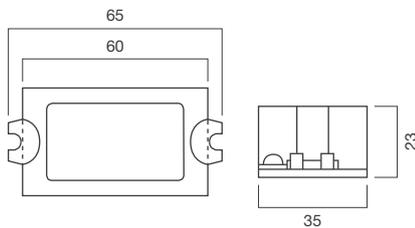

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>3-7Vdc • 500mA</b>
Number Led	<b>1-2</b>
Power	<b>3W</b>

Code **APP003.650**

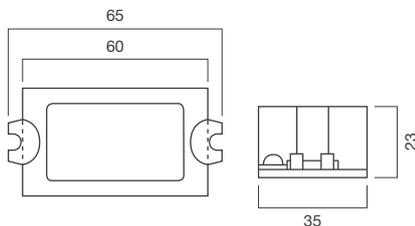

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>3-5Vdc • 650mA</b>
Number Led	<b>1</b>
Power	<b>3W</b>

Code **APP006.350**

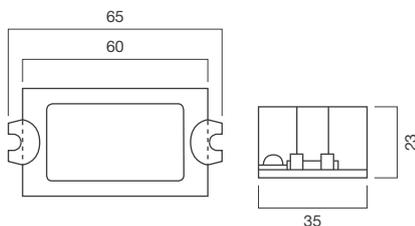

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>10-21Vdc • 350mA</b>
Number Led	<b>3-6</b>
Power	<b>6W</b>

Code **APP006.500**

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>3-12Vdc • 500mA</b>
Number Led	<b>1-3</b>
Power	<b>6W</b>

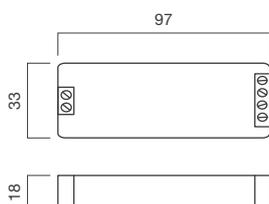

Code **APP006.650**

Protection	<b>IP67</b>
Input	<b>100-240Vac • 50~60Hz</b>
Output	<b>3-10Vdc • 650mA</b>
Number Led	<b>1-2</b>
Power	<b>6W</b>

Centralina Dimmer 1..10V.  
Dimmer 1..10V controller.

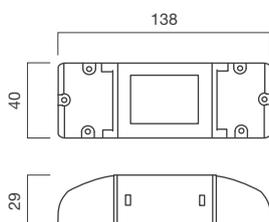

Code **AL240P**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>1..10V</b>
Current	<b>8A</b>
Power	<b>120-240W</b>

Centralina Dimmer Dali/Push/1..10V.  
Dimmer Dali/Push/1..10V controller.

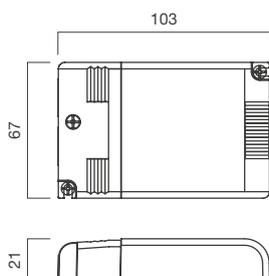

Code **AL288D/P**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Dali/Push/1..10V</b>
Current	<b>12A</b>
Power	<b>144-288W</b>

Alimentatore multicorrente/multitensione Dimmer 1..10V/Push.  
Multicurrent/multivoltage Dimmer 1..10V/Push driver.

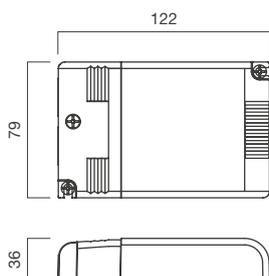

Code **DCJOLLY**

Protection	<b>IP40</b>
Input	<b>110-220Vac</b>
Output	<b>12-24Vdc e/and 43Vdc</b>
Controller	<b>1..10V/Push</b>
Current	<b>350-500-700mA</b>
Power	<b>Max 25W</b>

Alimentatore multicorrente Dimmer 1..10V/Push.  
Multicurrent Dimmer 1..10V/Push driver.

Code **AL056P**

Protection	<b>IP40</b>
Input	<b>100-265Vac</b>
Output	<b>3-48Vdc</b>
Controller	<b>1..10V/Push</b>
Current	<b>800-2000mA</b>
Power	<b>32-56W</b>

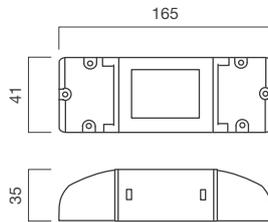

## ALIMENTATORI SPECIALI

**ECO**  
power

Special drivers

Alimentatore multicorrente Dimmer Dali/Push.  
Multicurrent Dimmer Dali/Push driver.

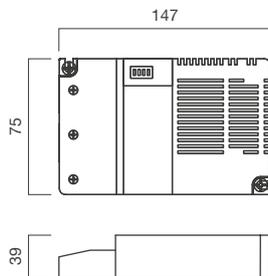

Code **AL030DALI**

Protection	<b>IP40</b>
Input	<b>100-250Vac</b>
Output	<b>3-42Vdc</b>
Controller	<b>Dali/Push</b>
Current	<b>250-1000mA</b>
Power	<b>10-30W</b>

Alimentatore multicorrente Dimmer Dali/Push.  
Multicurrent Dimmer Dali/Push driver.

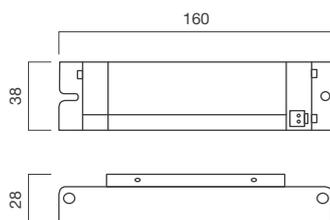

Code **AL060DALI**

Protection	<b>IP40</b>
Input	<b>100-265Vac</b>
Output	<b>15-48Vdc</b>
Controller	<b>Dali/Push</b>
Current	<b>700-2100mA</b>
Power	<b>33-60W</b>

Kit Emergenza per LED universale, autonomia 3 ore, pacco batterie incluso.  
Universal Emergency LED Kit, 3 hours autonomy, battery pack included.

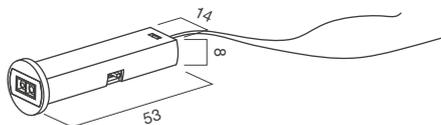

Code **EMG02**  
KIT EMERGENZA  
EMERGENCY KIT

Protection	<b>IP20</b>
Input	<b>220-240Vac</b>
Output	<b>6-60Vdc</b>
Controller	<b>Emergenza</b>
Current	<b>40-400mA</b>
Power	<b>30W</b>
Battery	<b>Ni-Cd 3.6V 3000mA/h</b>

Sensore a infrarossi compatto, con funzione switch.  
Compact infrared sensor, with switch function.

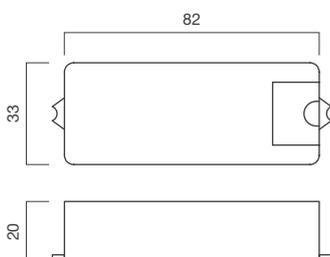

Code **S01**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Switch</b>
Current	<b>2A</b>
Power	<b>24-40W</b>

Sensore a infrarossi con centralina separata, con funzione switch.  
Infrared sensor with separated controller, with switch function.

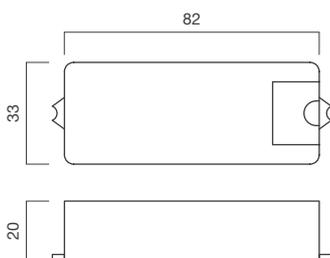

Code **S02S**

Protection	<b>IP40</b>
Input	<b>12-36Vdc</b>
Output	<b>12-36Vdc</b>
Controller	<b>Switch</b>
Current	<b>8A</b>
Power	<b>96-288W</b>

Sensore a infrarossi con centralina separata, con funzione dimmer e switch.  
Infrared sensor with separated controller, with dimmer and switch function.

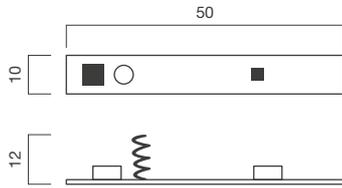

Code **S02D**

Protection	<b>IP40</b>
Input	<b>12-36Vdc</b>
Output	<b>12-36Vdc</b>
Controller	<b>Dimmer &amp; Switch</b>
Current	<b>8A</b>
Power	<b>96-288W</b>

Sensore per profili LED a sfioramento, con funzione switch.  
*Touch sensor for LED profiles, with switch function.*

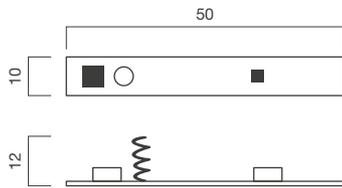

Code **S03**

Protection	<b>IP20</b>
Input	<b>12Vdc</b>
Output	<b>12Vdc</b>
Controller	<b>Switch</b>
Current	<b>2.5A</b>
Power	<b>30W</b>

Sensore per profili LED a sfioramento, con funzione dimmer e switch.  
*Touch sensor for LED profiles, with dimmer and switch function.*

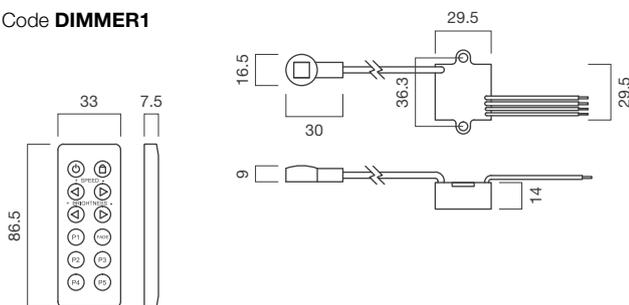

Code **S03D**

Protection	<b>IP20</b>
Input	<b>12Vdc</b>
Output	<b>12Vdc</b>
Controller	<b>Dimmer &amp; Switch</b>
Current	<b>2.5A</b>
Power	<b>30W</b>

Centralina Dimmer PWM Push/infrarossi per contenitore 503.  
*PWM dimmer control unit, push/IR control, for 503 box.*

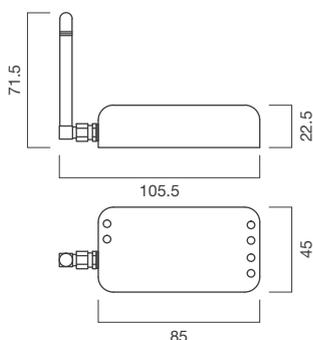

Code **DIMMER1**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Comando IR/Push / IR control/Push</b>
Current	<b>2A</b>
Power	<b>25-50W</b>
Accessories	<b>Telecomando Infrarosso Infrared remote control</b>

Centralina dimmer PWM con controllo WI-FI.  
*PWM dimmer control unit, with WI-FI controlled.*

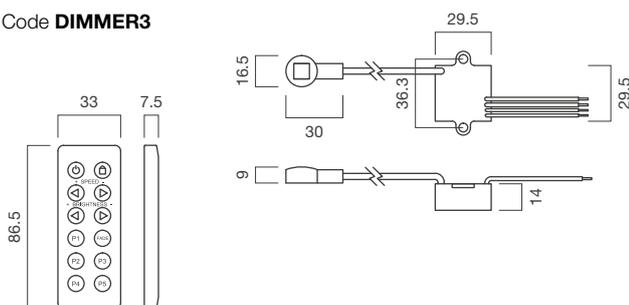

Code **DIMMER2**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Interfaccia WI-FI / WI-FI interface</b>
Current	<b>4A x 2ch.</b>
Power	<b>80-160W</b>

Centralina Dimmer con uscita 1-10V controllo Push/infrarossi per contenitore 503.  
*1-10V output dimmer control unit, push/IR control, for 503 box.*

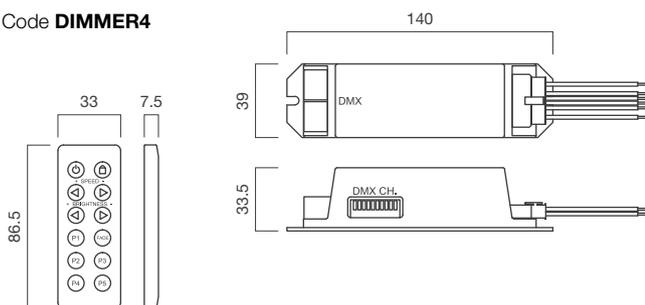

Code **DIMMER3**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>1-10V (Max 10 controller)</b>
Controller	<b>Comando IR/Push / IR control/Push</b>
Accessories	<b>Telecomando Infrarosso Infrared remote control</b>

Centralina dimmer PWM a 4 zone con controllo infrarosso. Uscita DMX.  
*4 areas PWM dimmer control unit with IR control. DMX output.*

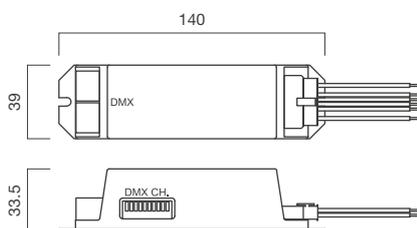

Code **DIMMER4**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Comando IR/Push / IR control/Push</b>
Current	<b>3A x 4ch.</b>
Power	<b>108-216W</b>
Accessories	<b>Telecomando Infrarosso Infrared remote control</b>

Compatibile con RIP-DIMMERO2N / Compatible with RIP-DIMMERO2N

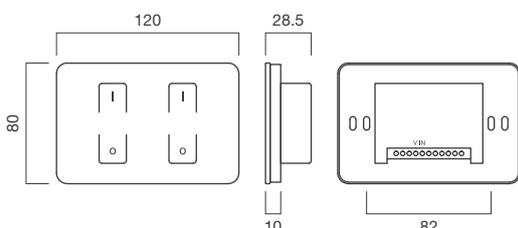

Ripetitore di potenza per DIMMER4, con controllo DMX.  
Power repeater for DIMMER4, with DMX control.

Code **RIP-DIMMER02N**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>DMX</b>
Current	<b>3A x 4ch.</b>
Power	<b>108-216W</b>

Compatibile con DIMMER4 / Compatible with DIMMER4

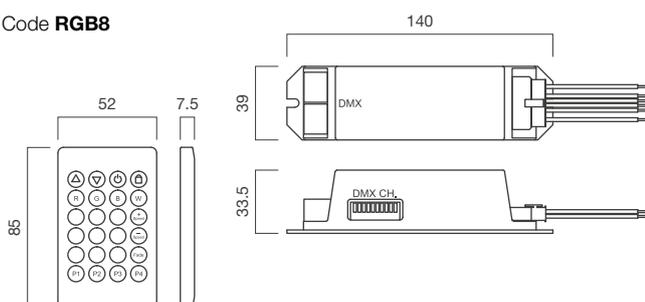

Dimmer a pannello touchscreen con uscita radio per scatola 503/504.  
Touch panel dimmer with RF output for 503/504 box.

Code **DIMMER5**

Protection	<b>IP40</b>
Input	<b>230Vac</b>
Controller	<b>RF 434-868Mhz</b>

Compatibile con CTR203 / Compatible with CTR203

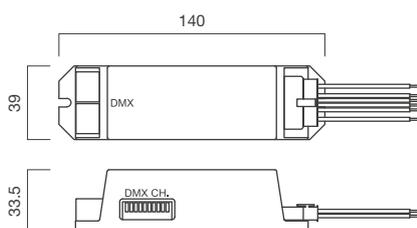

Centralina RGBW uscita master DMX con stadio di potenza.  
RGBW control unit with master DMX and power output.

Code **RGB8**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Comando IR/Push / IR control/Push</b>
Current	<b>3A x 4ch.</b>
Power	<b>108-216W</b>
Accessories	<b>Telecomando Infrarosso Infrared remote control</b>

Compatibile con RGB9 / Compatible with RGB9

Centralina RGBW slave DMX con stadio di potenza.  
RGBW DMX slave unit with power output.

Code **RGB9**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	
Current	<b>3A x 4ch.</b>
Power	<b>108-216W</b>

Compatibile con RGB8 / Compatible with RGB8

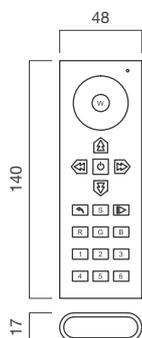

## CENTRALINE

**ECO**  
power

Radiocomando multifunzione RGBW a 6 zone, con scene e programmi impostabili.  
*6-zone RGBW multifunction radio remote control with scenes and programs selectable.*

Code **RGB11N**

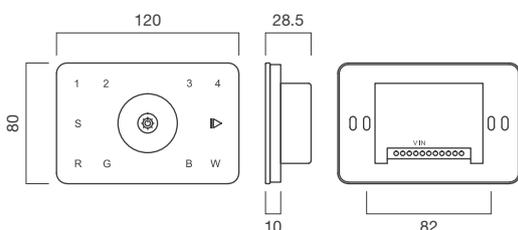

Protection	<b>IP40</b>
Input	<b>3 batterie AAA / 3x AAA batteries</b>
Controller	<b>RF 434-868Mhz</b>
Accessories	<b>Supporto a muro / Wall mount bracket</b>

Compatibile con CTR203 / *Compatible with CTR203*

Centralina multifunzione a pannello touchscreen RGBW con uscita radio per scatola 503/504.  
*RGBW touchscreen multifunction panel with radio output for box 503/504.*

Code **RGB12N**

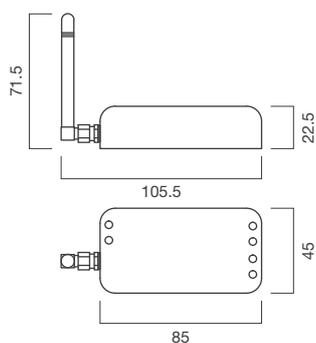

Protection	<b>IP40</b>
Input	<b>230Vac</b>
Controller	<b>RF 434-868Mhz</b>

Compatibile con CTR203 / *Compatible with CTR203*

Centralina RGB multifunzione con comand WI-FI.  
*RGB multifunction unit with comand WI-FI.*

Code **RGB10**

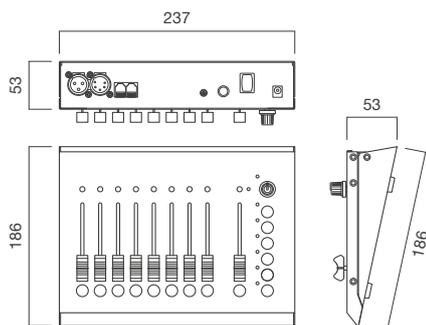

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>WI-FI</b>
Current	<b>4A x 4ch.</b>
Power	<b>120-240W</b>

Mixer luci a 8 canali con uscita DMX.  
*8 channel DMX console.*

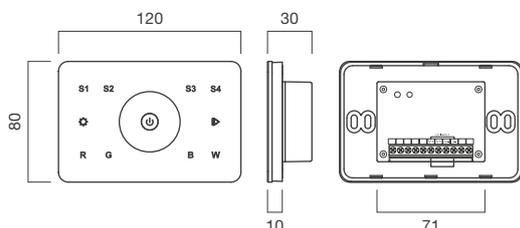

Code **CX804**

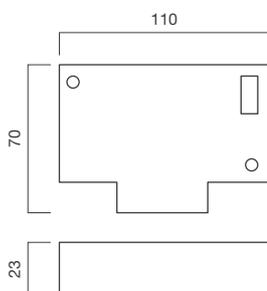

Protection	<b>IP40</b>
Input	<b>12Vdc</b>
Output	<b>DMX</b>
Controller	<b>DMX 8 ch.</b>
Input	<b>Audio</b>

Centralina RGBW da parete con controllo touch, adatta per scatole 503/504.  
Wall touch RGBW controller compatible with box 503/504.

Code **CTR213CT**

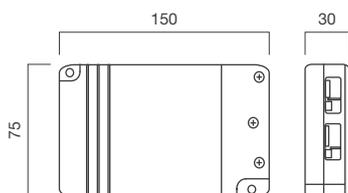

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Touch/RF/DMX</b>
Current	<b>16A</b>
Power	<b>192-304W</b>
Accessories	<b>CTR213R Radiocomando RF RF radio remote control</b> (dim. 137 x 39 x 11)
Non incluso / Not included	

Centralina RGB per controllo in tensione tramite DMX/DALI.  
RGB Controller LED in tension, DMX/DALI system.

Code **CTR212**

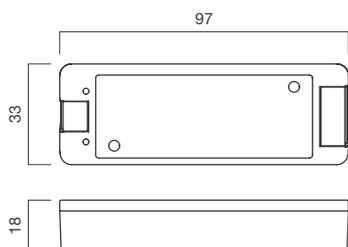

Protection	<b>IP40</b>
Input	<b>230Vac</b>
Output	<b>24Vdc</b>
Controller	<b>DMX 512/Dali</b>
Current	<b>6A</b>
Power	<b>20W</b>

Centralina RGB per controllo in corrente tramite pulsante.  
RGB controller LED in current, with switch button.

Code **CTR031**

Protection	<b>IP40</b>
Input	<b>100-264Vac</b>
Output	<b>6-33Vdc (1-9 LED)</b>
Controller	<b>Push</b>
Current	<b>350mA</b>
Power	<b>35W</b>

Centralina Dimmer con radiocomando a 4 zone.  
4 zone dimmer controller whit RF.

Code **CTR112DIM**

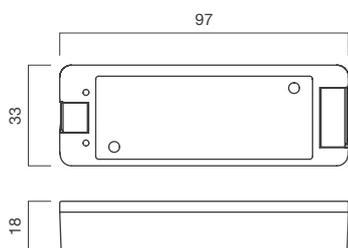

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>RF/2.4Ghz</b>
Current	<b>12A</b>
Power	<b>144-288W</b>
Accessories	<b>Radiocomando a 4 zone 4 zone radio remote control</b> (dim. 107 x 58 x 7)

## CENTRALINE

**ECO**  
power

Centralina RGB con radiocomando a 4 zone.  
4 zone RGB controller whit RF.

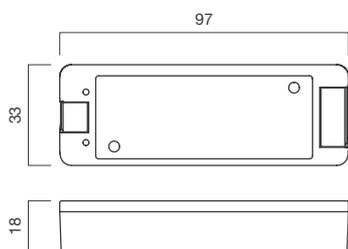

Code **CTR112RGB**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>RF/2.4Ghz</b>
Current	<b>12A</b>
Power	<b>144-288W</b>
Accessories	<b>Radiocomando a 4 zone 4 zone radio remote control</b> (dim. 107 x 58 x 7)

Centralina Bicolor con radiocomando a 4 zone.  
4 zone Bicolor controller whit RF.

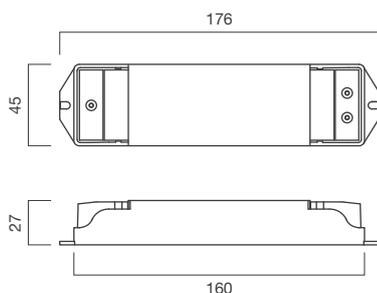

Code **CTR112BIC**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>RF/2.4Ghz</b>
Current	<b>12A</b>
Power	<b>144-288W</b>
Accessories	<b>Radiocomando a 4 zone 4 zone radio remote control</b> (dim. 107 x 58 x 7)

Amplificatore universale per qualsiasi tipo di segnale in tensione.  
Universal amplifier in tension for any type of signal.

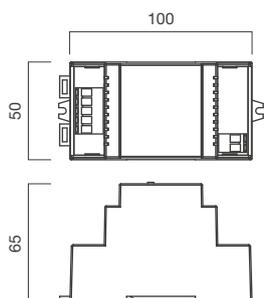

Code **AMP103**

Protection	<b>IP40</b>
Input	<b>12-36Vdc</b>
Output	<b>12-36Vdc</b>
Controller	<b>Amplificatore / Amplifier</b>
Current	<b>18A</b>
Power	<b>216-648W</b>

Centralina professionale RGB per barra DIN.  
Professional RGB controller DIN.

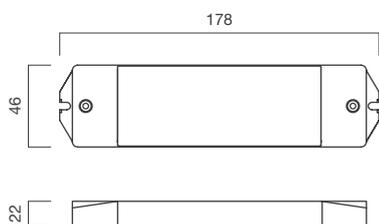

Code **CTR203DIN**

Protection	<b>IP20</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>RF 434-868Mhz</b>
Current	<b>4A x 4ch.</b>
Power	<b>240-720W</b>
Accessories	<b>CTR203R Radiocomando RF a 4 zone 4 zone RF radio remote control</b>

Centralina professionale RGB in tensione.  
Professional RGB controller in tension.

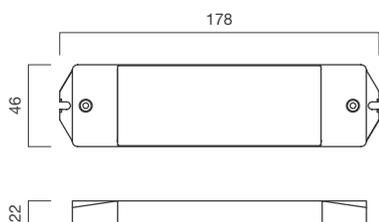

Code **CTR203CT**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>RF 434-868Mhz</b>
Current	<b>4A x 4ch.</b>
Power	<b>240-720W</b>
Accessories	<b>CTR203R Radiocomando RF a 4 zone 4 zone RF radio remote control</b>

Centralina professionale RGB in corrente.  
Professional RGB controller in current.

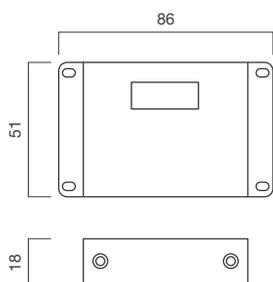

Code **CTR203C1W**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-48Vdc (3-12 LED)</b>
Controller	<b>RF 434-868Mhz</b>
Current	<b>350mA</b>
Power	<b>17-67W</b>
Accessories	<b>CTR203R Radiocomando RF a 4 zone 4 zone RF radio remote control</b>

Interfaccia RGB/DMX.  
RGB/DMX interface.

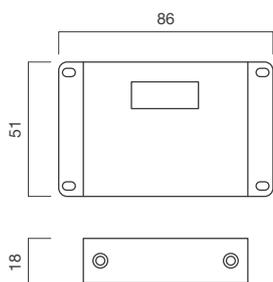

Code **CTR210**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Interfaccia / Interface</b>
Current	<b>9A</b>
Power	<b>108-216W</b>

Interfaccia Dimmer/DMX.  
Dimmer/DMX interface.

Code **CTR211**

Protection	<b>IP40</b>
Input	<b>12-24Vdc</b>
Output	<b>12-24Vdc</b>
Controller	<b>Interfaccia / Interface</b>
Current	<b>3A</b>
Power	<b>36-72W</b>

Codice base / Base Code

MADE IN ITALY

**DO00N**

Legenda Led color / Led color legend

**Apparecchio slim fisso da incasso per interni.**  
Corpo in alluminio con diffusore satinato per emissione omogenea della luce, oppure lenticolare per emissione spot.  
Fissaggio tramite apposite alette metalliche, montabile su cartongesso sia a soffitto che a parete. Disponibile con varie gradazioni e colori.

**Led color**  
1 = 3000°K (436 lumen)  
2 = 6000°K (499 lumen)  
3 = Blu / Blue  
7 = RGB  
9 = 4000°K (469 lumen)

**Power supply**  
1 = 350mA  
5 = 24Vdc

Code	<b>DO00N</b>
Power	<b>3W</b> (3 LED HP SMD)
